

Special Announcement

Eleanor Galt, OAM

The Board of Directors, management and staff of ONL extend their heartiest congratulations to Eleanor Galt on her award of the Medal of the Order of Australia (OAM) in the Queen's Birthday Honours List for June 2011.

Eleanor has been a member of Ostomy NSW Limited and its predecessor, Ileostomy Association of NSW, for many years and served as one of our Directors from 1988 to 2004, providing unstinting support and wise counsel.

This was done while being a very busy mother of three, the wife of a busy chaplain and working as a Clinical Psychologist at Concord Hospital.

Eleanor's award fittingly recognises and rewards her for service to clinical psychology and to public health, particularly through support for people undergoing colorectal surgery.

Eleanor's life is an example to all ostomates that a stoma should not be a reason for not succeeding in the things you want to achieve. Once again we say congratulations
